

AGRIFINTECH • B2B SUPPLY CHAIN • AI • BLOCKCHAIN

One platform.

Orchestrating food commodity supply chain across Africa - Europe - Asia corridor by leveraging AI and Blockchain.

UGANDA

NETHERLANDS

UNITED ARAB EMIRATES

PROBLEM

The global food system wastes one in three calories.

ANNUAL ECONOMIC FOOD WASTE

\$940B

to \$1 trillion lost each year.

1.3 billion tonnes of food — roughly one-third of everything produced for human consumption — is lost or wasted annually.

Source: FAO (Food & Agriculture Organization of the United Nations)

Fragmented supply chains

Producers, buyers and service providers operate in silos across borders.

Weak traceability

Farm-to-port visibility is limited — quality, safety and compliance gaps remain.

Capital starvation

Agribusinesses lack access to affordable trade finance.

Trust deficit

Cross-border commodity deals need expensive intermediaries and manual reconciliation.

One platform. Five integrated capabilities.

Famunera is solving agrifood supply chain inefficiency for agribusinesses by providing an AI and Blockchain-powered B2B infrastructure to streamline trade and financing across Africa – Europe – Asia corridor.

01

Marketplace

Showcase products, negotiate INCOTERMS and trade commodity futures.

02

Supply Chain Management

End-to-end supply chain from supplier to international shipping.

03

Traceability

Farm-to-port visibility and inspection records.

04

Data-backed Financing

Credit access for agribusinesses with verified data.

05

Smart Contract Escrow

Programmable settlement reduces counterparty and foreign exchange risk.

Three segments, one orchestrated platform.

Agribusinesses

(FPOs, SMEs)

WHAT THEY CAN DO

- Manage and trace supply chain: suppliers, bulking, facilities, inspection, shipping, customers.
- Showcase products, negotiate INCOTERMS and trade commodity futures.
- Apply for trade financing backed by verified supply-chain data.

Organizations

(Enterprises, NGOs, Government Agencies)

WHAT THEY CAN DO

- Create and manage agrifood projects across geographies.
- Add team members and implementers under each project.
- Access real-time impact data and performance insights of beneficiaries.

Service Providers

(Financiers, Quality Assurance, Logistics)

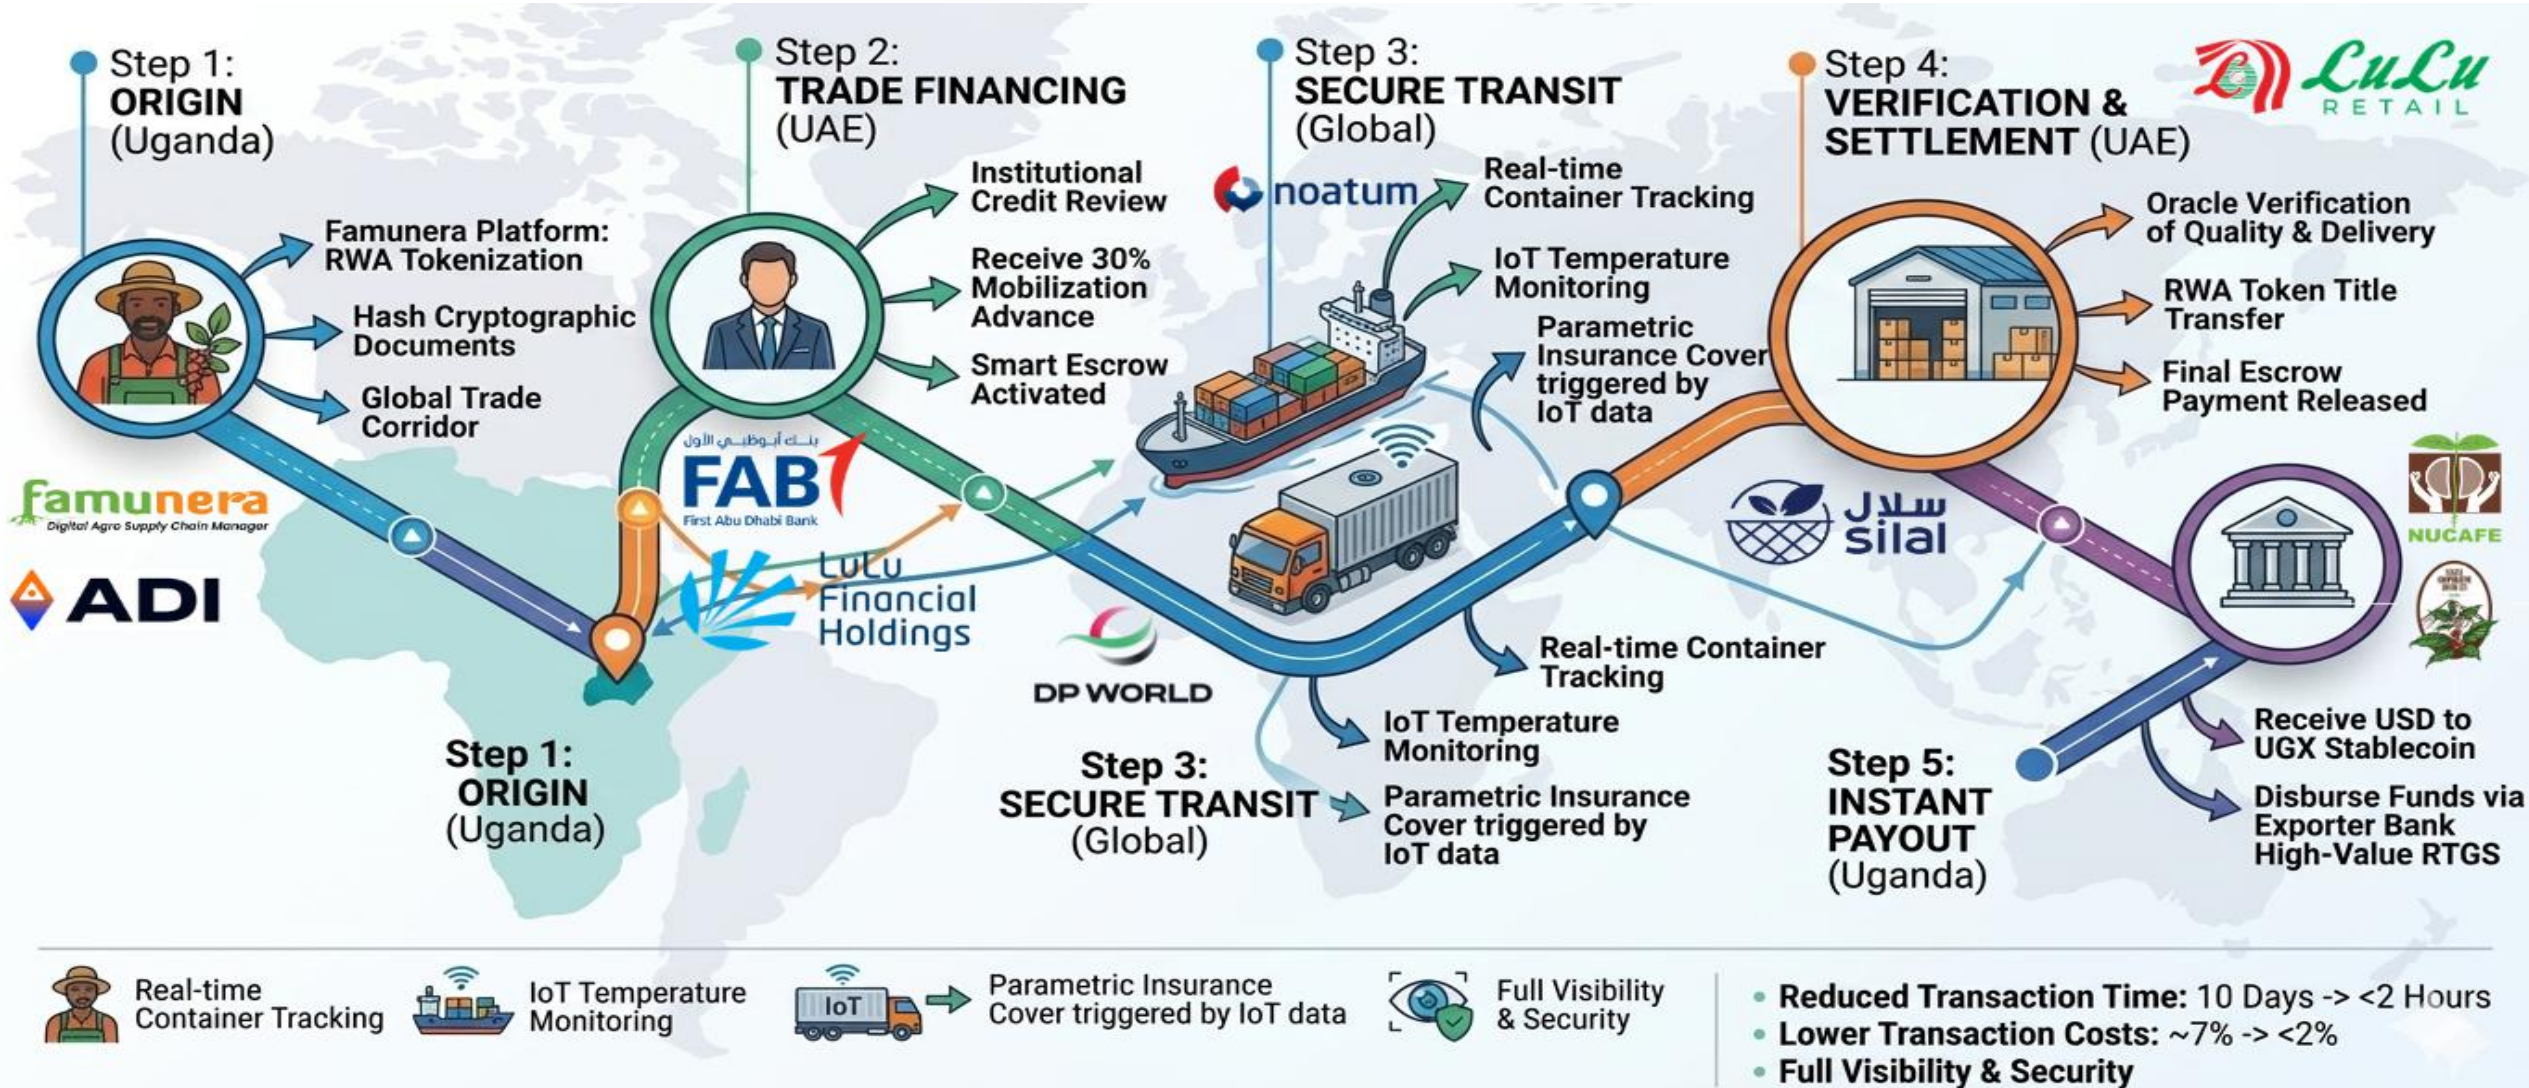

WHAT THEY CAN DO

- Integrate services across the supply chain.
- Receive quotation requests and issue Purchase Orders (POs).
- Access detailed analytics about the performance of their business.

HOW IT WORKS

Tokenization & Smart Contract Escrow.

MARKET OPPORTUNITIES

A \$6.85 trillion market across the Africa - Asia - Europe corridor.

\$4T

—
Asia Food Market (Statista 2025)

\$2T

—
Europe Food Market (Statista 2025)

\$851B

—
Africa Food Market (Statista 2025)

TRACTION

Since 2023 — real demand.

2,000+

Agribusinesses onboarded

Across the Africa – Europe – Asia
corridor

40,000+

Individual farmers

under different supply chains

\$100M+

Annual market linkages

facilitated on the digital platform
